CINEMA

WRITTEN AND DIRECTED BY PEPE PEÑALVER

HISTORY OF AN INFINITE HOUSE

A house is an infinite living entity. The space we inhabit somehow inhabits us, accompanying and providing us with a refuge that transcends the tangible, that shelters our inner world, indescribable sensations in an infinite cycle of colours and textures.

The textiles that dress a house are the sensorial map that makes a home an elevated element, a tactile self-portrait of memories and moments shared in each of its different corners and spaces.

What you touch, feel, what you remember... this is Cinema, fabrics capable of telling stories and evoking memories and sensations. Textiles capable of becoming the meeting point of the ethereal and the tactile.

This collection pays tribute to emotions and invites us to reflect on the pleasure of living surrounded by fabrics that are capable of evoking lasting sensations, which eventually become life companions.

GUARANA

SHEERS & CURTAINS

A TEXTILE JOURNEY THROUGH THE HEART OF THE AMAZON

The Amazon is the lungs of the world, the wildest spring. This same fresh air has inspired Guarana, a sensory journey through fabrics that evoke the tribes, vegetation and craftsmanship of the Amazon.

Guarana takes us on a journey towards an immersive experience that transcends the aesthetic. In this reencounter with the natural and the primal, each fabric, with its distinctive look and enveloping texture, weaves a thread that connects us to our roots and reminds us of the enigmatic balance between naturalness and elegance. Discover the essence of the Amazon in fabrics that evoke human authenticity, connecting nature with avant-garde design.

NANTI

A WINDOW TO NATURE INSIDE YOUR HOME

Nanti is a fabric capable of transforming any corner into a window to nature. It comes in a palette of 15 shades that evoke the petrichor, that smell of damp earth that we can feel in an area full of vegetation.

An organically designed net curtain that not only adds a distinctive touch to the environment but also tells the timeless story of the connection between man and nature.

IBURI

A TIE-DYE SHEER THAT EVOKES THE WONDERS OF THE AMAZON

Iburi is a tie-dye sheer with an ethnic pattern reminiscent of the instruments of the Amazonian tribes, atavistic materials that evoke the most primal practices of human societies. The naïf colour palette and fluid movements of this sheer evoke the wonders of the Amazon, creating a unique atmosphere in the space it inhabits.

CAMOTE

FABRICS THAT SPEAK OF A LIVING NATURE

Camote is a recycled fabric with a smooth texture that evokes the light breeze of the Amazon rainforest, ideal both as a curtain and for decoration. The durability of this fabric highlights the connection to things that last over time. Presented in a palette of 14 colours that remind us of living nature, typical of the jungle areas, this fabric becomes the perfect element to let the natural world speak for itself, integrating harmoniously into your home.

MAMBE

A SHEER WITH A TOUCH OF FANTASY

Mambe is a sheer in neutral tones with vertically oriented fancy looped yarns. This sheer adds an ethereal touch to any space. A lightweight linen that captures the essence of the connection to the natural, inviting light to dance warmly into your home while evoking the grace of Amazonian tribal societies.

AMBIL

ELEGANT SIMPLICITY TRANSFORMED INTO A SHEER

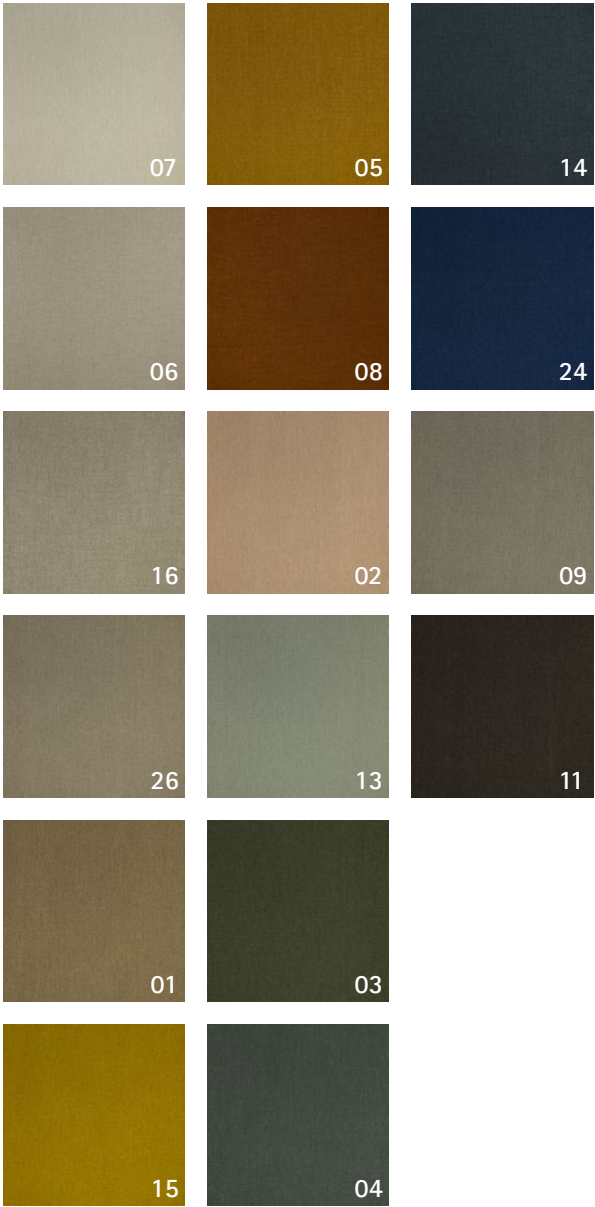

Ambil embodies elegance in its simplest form. Its delicate simplicity evokes the peace transmitted by the synergy of all the elements that coexist in the Amazon, adding a touch of sobriety and sophistication to any space. A volatile fabric designed for sheers.
